# Case Scenarios

superior  
healthplan™

## Medicaid Covered Services

Can be accessed without a court order as long as they are medically necessary

Services that are not medically necessary cannot be paid for by STAR Health

If services are needed with a Specialist, a referral may be required by the Primary Medical Provider (PCP)

## Non-Medicaid Covered Services

STAR Health does not pay for Non-Medicaid Covered Services

Care grants, value added services & case by case services may be considered (*if appropriate*) and do not require a court order to be accessed

Court Ordered Non-Medicaid Covered Services become the financial responsibility of DFPS

## Orthodontia

Must be medically necessary for STAR Health to pay

To start the process, the child/youth must be seen by their dentist for a referral to an orthodontist

The orthodontist must complete an evaluation to determine if services are medically necessary for Medicaid services to be covered.

## Placement

Placement is not a Medicaid covered benefit and cannot be paid for by STAR Health

Placement considerations must be secured through DFPS

Caseworkers must contact their Regional Well Being Specialists to begin the court ordered placement process
